

DEBOJYOTI SAHA

Enterprise AI Engineer | Cloud Engineer | Software Engineer

Bengaluru, India | +91 9007863360 | debojyotisaha26@gmail.com

LinkedIn: linkedin.com/in/debojyoti-saha-968724238

PROFESSIONAL SUMMARY

Associate Software Engineer at Accenture with experience in Enterprise AI Engineering, Cloud Engineering, Software Development, and DevOps within the Banking & Financial Services domain. Experienced in designing and developing AI-powered engineering solutions, cloud-native applications, serverless architectures, and developer productivity platforms using Java, Python, AWS, and modern CI/CD practices. Built production AI agents automating database modernization, repository quality remediation, access workflow automation, and software delivery lifecycle operations. Recognized for delivering enterprise AI solutions, cloud modernization initiatives, and high-performance engineering automation while driving measurable improvements in developer productivity and software delivery.

CORE COMPETENCIES

Languages: Java, Python

Cloud: AWS Lambda, AWS Glue, Amazon S3, Amazon ECS, Serverless Computing

DevOps: Jenkins, Spinnaker, Bitbucket, Git, CI/CD Pipelines

Testing: Cucumber, Unit Testing, Component Testing, Acceptance Testing, E2E Testing, TestSight

Enterprise AI & Automation: Generative AI, Agentic AI, Enterprise AI Agents, Multi-Agent Systems, Prompt Engineering, AI Workflow Automation, Browser Automation (Playwright), GitHub Copilot

Data Engineering: ETL, Data Pipelines, Database Migration, Event-Driven Processing

PROFESSIONAL EXPERIENCE

Accenture | Associate Software Engineer | Dec 2024 – Present

- Develop enterprise-grade software solutions for **Banking & Financial Services** clients using Java, Python, AWS, and cloud-native technologies.
- Design, develop, and maintain cloud-native applications leveraging **AWS Lambda, AWS Glue, Amazon S3, and Amazon ECS**.
- Designed and implemented AWS Lambda functions from scratch supporting enterprise-scale business workflows.
- Supported and enhanced 15+ AWS Lambda functions and 5 AWS Glue jobs across Development and UAT environments.
- Worked extensively with **Jenkins, Spinnaker, Bitbucket, Git, and CI/CD pipelines** to automate software delivery and deployment.
- Migrated AWS Lambda and Glue workloads from MySQL-compatible implementations to PostgreSQL-compatible architectures.
- Designed and developed **an AI Database Code Operations & Migration Agent** capable of automating database migration and operations code generation across 20+ technology combinations, reducing migration effort from approximately 2 days to nearly 1 hour.
- Developed **an AI Repository Quality Resolution Agent** that automates repository quality analysis, repository cloning, issue remediation, feature branch creation, and build validation workflows.
- Built **an AI Access Request Automation Agent** using Playwright and browser automation to streamline standardized onboarding and project access request workflows.
- Designed and developed **the Multi Agent Orchestration System**, a production AI engineering solution within a 16-agent enterprise orchestration system, automating software engineering workflows across requirement analysis, repository intelligence, design mapping, TDD guidance, enterprise code generation, cross-repository search, DevOps automation, deployment monitoring, engineering analytics, and developer productivity.
- Performed Photon and Python runtime upgrades across 20+ repositories.
- Increased code coverage beyond 80% through Unit, Component, Acceptance, End-to-End, and Cucumber testing across 10+ repositories.
- Leveraged AI-assisted development and prompt engineering to accelerate engineering productivity and software delivery.

ENTERPRISE AI ENGINEERING INITIATIVES

Enterprise Multi-Agent Orchestration Platform

Designed and developed a production Enterprise Multi-Agent Orchestration Platform comprising **16 specialized AI agents** that automate end-to-end software development lifecycle workflows, including requirement analysis, repository intelligence, design mapping, TDD assistance, enterprise code generation, DevOps automation, deployment monitoring, engineering analytics, and developer productivity.

AI Database Code Operations & Migration Agent

Designed and developed an AI-powered engineering agent automating database modernization, SQL migration, compatibility analysis, and operations code generation across 20+ technology combinations, reducing migration effort from approximately **2 days to nearly 1 hour** and receiving managerial recognition as an internal AI success story.

AI Repository Quality Resolution Agent

Developed an AI-powered automation agent capable of analysing repository quality findings, retrieving repository context, cloning repositories, implementing automated fixes, creating feature branches, and validating build readiness.

AI Access Automation Agent

Built an AI-powered browser automation agent leveraging Playwright to automate standardized project onboarding and access request workflows by replicating enterprise request processes.

ACHIEVEMENTS & RECOGNITION

- Team Excellence Award (January 2026) for contributions to a high-performance event-driven data processing solution.
- Accenture Learning & Certification Recognition for successful completion of advanced Google Cloud certifications.
- Manager Recognition for successfully delivering an AI-powered Database Code Operations & Migration Agent recognized as an internal AI engineering success story.
- Earned 9 industry certifications across Google Cloud, AWS and Databricks.

CERTIFICATIONS

- Google Cloud Professional Cloud DevOps Engineer
- Google Cloud Professional Cloud Database Engineer
- Google Cloud Associate Cloud Engineer
- Google Cloud Associate Data Practitioner
- Google Cloud Generative AI Leader
- Google Cloud Digital Leader
- Databricks Generative AI Engineer Associate
- Databricks Data Engineer Associate
- AWS Certified AI Practitioner

LEADERSHIP & ACTIVITIES

- General Secretary, Estrella Productions (Official Film Club of FIEM)
- Lead Organizer, Celluloid International Film Festival

EDUCATION

B.Tech, Computer Science & Engineering | Future Institute of Engineering & Management | 2024 | CGPA: 9.3+
ISC: 83.33% | ICSE: 92%
